WINNER BEST ROOM

Ayden and Jess have created a kitchen that is right on trend – blending traditional cabinetry with modern conveniences. This was achieved by blending shaker style doors with state of the art appliances and a large eat in island. The profiled cabinetry in Stone Grey brings an element of sophistication, and the benchtop choice of Silestone Lyra adds a natural feel to the classically styled kitchen.

JOSH & CHARLOTTE'S KITCHEN

Josh and Charlotte were able to create a feature packed kitchen in a relatively compact space, whilst still maintaining their signature minimalist style, and the end result is nothing short of stunning. The crisp white cabinetry was offset by the raised café style timber bench and Titanium drawer fronts, while subtle marbling in the Silestone benchtop in Helix revelled in elegance. The benchtop, island drawers and timber top bring warmth to an otherwise stark space.

TIM & ANASTASIA'S KITCHEN

Tim and Anastasia created a modern and streamlined kitchen by using contrasting colours and textures – black and white, gloss and matt. The soft greys of the Silestone Lagoon benchtops provide tonal variety to balance the monochromatic colour palette, and the result is a timeless colour scheme. Handle-less cabinetry, double ovens, mirrored splashback and preparation nook tick all the boxes for modern living.

Darren and Deanne designed their kitchen to act as the social hub of the home which revolves around the large island. Not only a place to gather, it doubles as a prep and serving space. Their clever use of colour blocking has created three distinct zones within the kitchen; appliances are housed within tall timber grain cabinetry, the workspace is defined by Cemento Spa Silestone benchtop, and the island, with its contrasting colours, stands out as the focal point of the room.

White kitchens continue to dominate in Australia however timber grains and colours such as black and grey have become a key trend and add a hint of drama. These bold colours are classic and provide a neutral base that welcomes colourful splashbacks, accessories and artwork that can be changed over time.

HOT TREND GREY

Grey is a great alternative to white in your kitchen space, and looks sleek and chic when paired with stainless steel taps, sinks and appliances. Combine with timber to add warmth and personalise with bright accent colours.

HOT TREND MIX & MATCH

Combining different materials and textures creates a unique look in the kitchen and is a clever way to link the kitchen to furniture and decor in connecting rooms. Try pairing gloss cabinetry with timber to bring a bold and dynamic feel to your kitchen space.

COLOUR TRENDS

The creative use of contrasting cabinetry and pattern give the kitchen a bold, dramatic look.

Laundries are a renewed focus of renovations. Whether you have a New York laundry tucked discreetly behind bi-fold doors, included as part of the bathroom or a dedicated room, the trend in laundry design is away from the plain and provides a stylish area for clothes sorting, washing, folding and ironing.

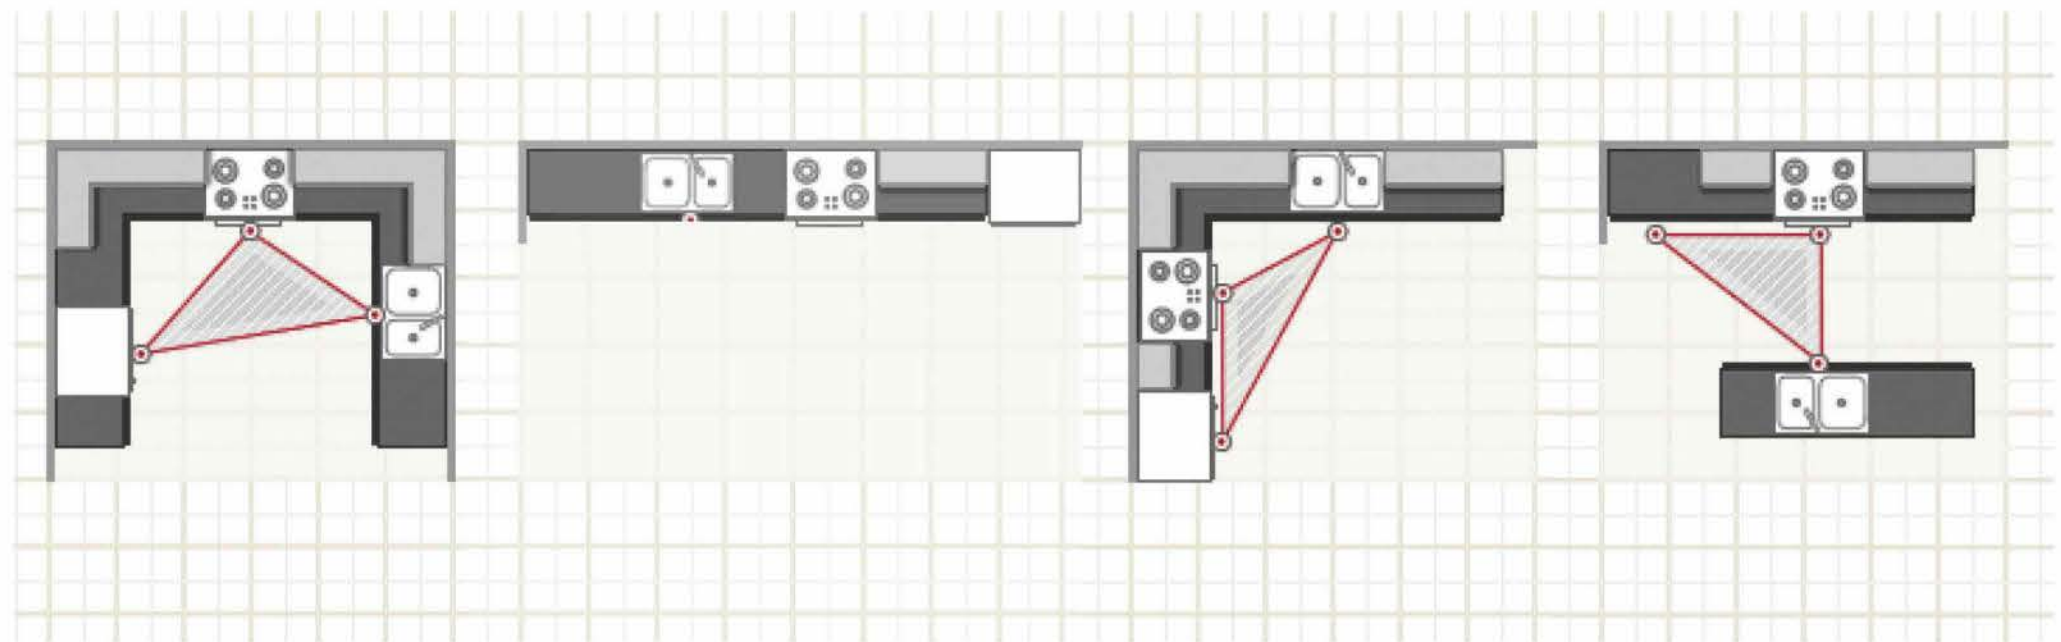

Continue the look and feel of your kitchen right through to the laundry space for a cohesive and well designed home.

OLIVERI SINKS AND TAPS

Each Oliveri sink has been designed with an accessory lip so that your sink can be turned into a total food processing area. Timber chopping boards and colanders are supplied standard with a number of Oliveri sinks, and fit securely over the main bowl of the sink to free up additional bench space. Likewise the stainless steel drainer baskets fit either on top of the sink drain board, or in a double bowl sink, inside the second bowl. This means that water is kept in a designated wet area and bench top space is maximised.
